

# M - 30 MUSIC ON HOLD

## FACTS:

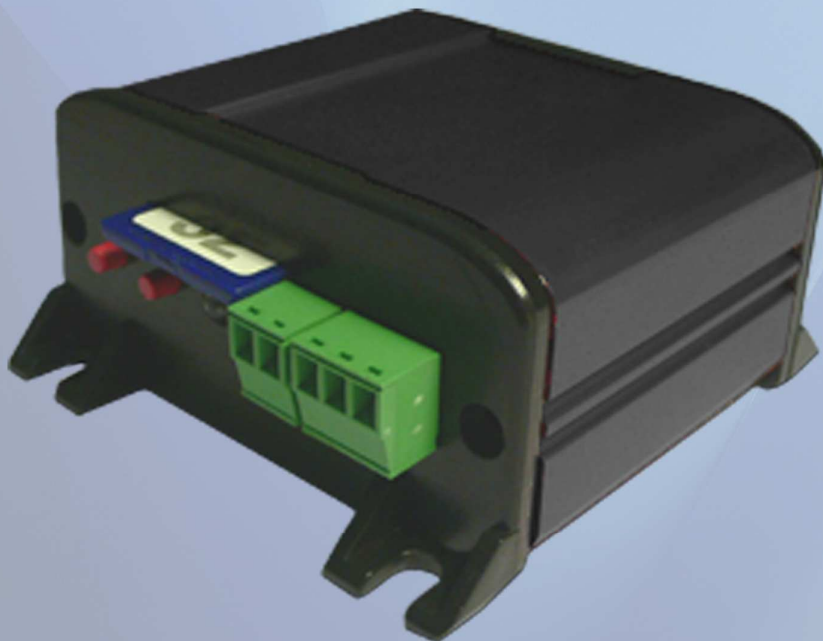

70% of business callers will be put on-hold

If there's a 'silent line' 60% will hang up and 30% of them will not call back

15 to 20% of callers make purchases based on what they heard while on-hold

Callers hearing messages on-hold will stay on the line for up to 3 minutes longer.

Did you know ?  
on-hold messages can improve your image, result in more sales and ensure your callers will still be there when their calls are answered.
